I am helping 10 local businesses this month optimize their Google Business Profile + Instagram bio using AI for Rs.1,500 (24-hour delivery).

DEMO SCRIPT (When They Say "Send It")

Here is your CURRENT description:

"[Paste their current weak description]"

Here is the AI-OPTIMIZED version:

"[Paste your AI-generated version]"

See how it includes keywords like "best [service] in [City]" and "affordable [service] near [Landmark]" that people actually search for?

I also wrote 5 Google posts for you:

1. [Post 1]

2. [Post 2]

...

5. [Post 5]

This full package is Rs.1,500. I deliver everything in a Google Doc within 24 hours of payment. I accept UPI/Google Pay. Ready to proceed?

OBJECTION: "Too Expensive"

I completely understand. Since I am building my portfolio in [City] right now, I can do this for Rs.1,000 as a one-time portfolio price. But I can only offer that to 5 businesses this month.

Should I lock this in for you at Rs.1,000?

OBJECTION: "I Do Not Need This"

Fair enough. Can I ask - how do most of your new customers currently find you?

[Wait for answer]

If it is Google or Instagram, this directly helps you show up higher. If it is word-of-mouth, this makes sure people actually call you when they search your name. Worth trying for Rs.1,000?

REFERRAL SCRIPT (Immediately After Payment)

Thank you so much! I am building my portfolio in [City] this month.

Do you know 2 other business owners who might need this? I will give them the same portfolio price of Rs.1,000 (my regular rate is Rs.3,000).

Just share their WhatsApp numbers and I will mention you referred me.
